

NeoTimber® LED SOLAR POST LIGHT INSTRUCTIONS

- **Operation Instructions:** Before using the Post Light for the first time, turn ON the ON/OFF switch. You only need to do this once. After initial setup, you won't need to adjust the switch again.
- **Charging Instructions:** Place the Post Light in an area where it receives direct sunlight. Ensure that there are no obstructions (including shadows) blocking light from the solar panel. For the first use, allow the Post Light to charge in the sun for at least three hours. Under average sunlight conditions, it will take approximately 8 hours to fully charge.
- **If the Post Light Isn't Lighting Up:** The Post Light may have low charge upon arrival. At least three hours of sunlight is required to charge the unit prior to first use.
