

NeoTimber® Bollards Datasheet

NeoTimber's bollards are made from responsibly sourced plastic, and serve as durable, long-life markers to clearly border the perimeters of your space.

Our Ethos

Environmental stewardship is at the heart of everything we do.

All of the recycled plastic we use for NeoTimber's furniture products is responsibly sourced, rigidly checked for quality, before being washed, shredded, and blended together.

Full range includes: Tables • Benches • Bins/Composters • Planters • Garden furniture

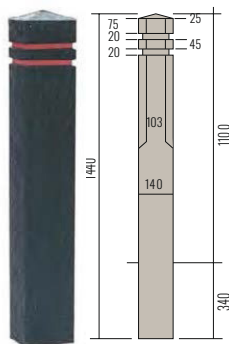

Learn more about our recycled plastic products, visit us at www.neotimber.com/furniture/

Class 1 diamond grade banding available

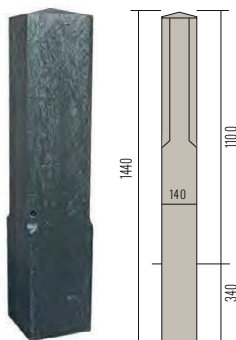

20mm in red, white or half red/ half white
 50mm in red, white or half red/ half white
 80mm in red, white or half red/ half white

Unless otherwise specified, NeoTimber's Bollards will require a minimum below ground depth of 450mm to 500mm and 400mm square. We recommend setting the bollards in concrete to a strength of 23kN. Positioning pegs are available for keying into the concrete where bollards are supplied with a pre-drilled hole located approximately 200mm up from the base. All bollards are black unless stated otherwise.

Square Based Bollards
